

Appn No. 09/663,476  
Amend. Dated August 25, 2004  
Response to Office action of July 1, 2004

2

**Amendments to the Claims:**

This listing of claims will replace all prior versions, and listings, of claims in the application:

**Listing of Claims:**

1. (Currently amended) A recyclable, one-time use, print on demand, digital camera comprising:  
a chassis comprising:-  
an image sensor device for sensing an image;  
a processing means for processing said sensed image;  
a pagewidth print head for printing said sensed image;  
an ink supply means for supplying ink to the print head;  
a supply of print media on to which said sensed image is printed; and  
a casing surrounding and encasing said chassis so that the ink supply means is unable to be accessed without destruction of the casing,  
wherein the ink supply means comprises an ink supply cartridge which defines a plurality of ink supply channels, each of which is in communication with the print head and each channel containing a different color ink, in use, for enabling full color printing to be effected.
2. (Original) The camera of claim 1 in which the casing comprises two shells, the shells being bonded together during one of a manufacturing process and a recycling process.
3. (Original) The camera of claim 1 in which the casing is of a recyclable material.
4. (Cancelled)
5. (Currently amended) The camera of claim 4-1 in which the ink supply cartridge includes an inlet opening in communication with each channel via which said channel is refilled during recycling of the camera.
6. (Currently amended) The camera of claim 4-1 in which each channel has a vent associated therewith, the vent being open during a refilling operation of the channel to allow egress of air from the channel and the vent being sealed after the refilling operation.
7. (Original) The area of claim 6 in which the seal is a replaceable seal to be removed during the refilling operation and replaced by a new seal after completion of the refilling operation.
